Senate Report

WRPS-WNTC Merger:

A new merger proposal was introduced by Gary Landrio of WNTC. Once again discussion centered on the fact while WNTC staff is 50-50 for the merger WRPS personnel are against it by 85%-15%. Senate has every legal right to authorize such a merger, but the question remains if it would be a wise decision with such opposition. Discussion was ended, with David Cheeseman reminding the senators that they could submit a resolution at the end of the session.
